Message from the Controller General of Immigration and Emigration

The Department of Immigration and Emigration plans to stride forward with the government's policy themed "A Prelude for a stronger Future", which intends to transform Sri Lanka into an economic and financial hub in Asia by promoting local and foreign investments for the development process of Sri Lanka.

I treat it as a fortune to add a message to the Performance Report 2024, highlighting the achievements made in the year 2024, even before the challenging situations of the Department of Immigration and Emigration,

which is committed to achieve its vision of becoming the best Immigration and Emigration service in the region.

Following the government policies, the issuance of tourist visas was able to bring direct Dollar revenue to the Sri Lankan economy being a major mode that contributes to bring foreign exchange into the country by adopting a friendly approach for tourists. Furthermore, it has also been provided facilities for issuing long-term residence visas attracting investors to invest in Sri Lanka. Taking action to provide Tourist visa free of charges for 07 countries to make more smooth the immigration and emigration process by enhancing market opportunities and improving tourism industry may be highlighted as a significant achievement. Additionally, enhancement of the cooperation between India and Sri Lanka by commencing the travelling activities between two countries, which was suspended in the year 1994, from the Nagapatnam Port in India to Kankesanthurai Port in the year 2024 was a significant achievement in the Border Control system. Furthermore, the plans necessary for immigration and emigration activities in the Colombo Port City premises have been commenced in the year 2024. In addition, in order to streamline the passenger clearance activities, action is being taken to implement to make success the project of introducing automatic passenger clearance gates (e-gates) for passenger clearance counters at the Bandaranaike International Airport premises, working closely with the Airport and Aviation Services Company. Passenger clearance activities and facilities for naval personnel have also been improved by further expanding the Seaport services and on-board passenger clearance activities have been maintained continuously and systematically. Procurement activities have been commenced in the year 2024 to provide electronic passports (e-passports) as an internationally recognized passport in the future.

I would like to thank His Excellency the President, the Prime Minister, the Minister in charge of the Ministry, the Secretary to the Ministry for guiding us to achieve our Vision, Mission and Roles as well as all government institutions including other Ministries, Departments, Statutory Bodies, officers of Overseas Mission and all international organizations and all clients at the event of dawning the year 2025. Specially, I would like to take this opportunity to appreciate the service of the entire staff of the Department of Immigration and Emigration for the work they rendered dedicatedly to add a revenue of Rs. 38.01 Billion to the National Revenue rendering continuous service to the Public.

Granting approval for sending (couriering) passports out of Sri Lanka

According to the Immigrants and Emigrants Act, it is illegal to send a passport to another country by post or any other way without a prior written permission from the Controller General of Immigration and Emigration and without the passport holder. Accordingly, this Department grants approval to send passports to the countries where Embassies are located in order to obtain visa required to enter the countries where Embassies have not been located in Sri Lanka. (Ex: Passports are couriered to New Zealand High Commission in New Delhi, India to obtain New Zealand visa.)

Accordingly, in the year 2019, 19334 passports have been allowed to be couriered under the approval of the Department, for which a sum of Rs: 1000.00 has been charged for each passport, and from 01.07.2019, a sum of Rs. 1150.00 has been charged for each passport. It has thereby earned an income of Rs: 20,376,650.00 (Rs. 20.37665 million). As per the budget proposals 2023, it was proposed to levy Rs. 2, 000/- for sending passports by courier service to foreign countries and it was implemented from 17.11.2022.

5.2 Performance of Achieving Sustainable Development Goals (SDGs)

Explain (using the indicators) the achievements of the Institution in achieving Sustainable Development Goals.

1. Number of foreigners deported from the country based on investigations conducted on foreigners staying in the country violating the Immigrants and Emigrants Act

- 1.1 Field surveillances were conducted during the year 2024 and the main issues encountered at the event was that not staying the foreigners at the places where they mentioned to be stayed as per the information provided by them and the main barrier to supervise them was the inability to obtain the necessary information in advance as it is not mandatory to visit the country with an Electronic Travel Authorization. However, the Department takes action to achieve the investigation goals by collecting accurate information on foreigners staying in and visiting Sri Lanka through distant surveillance using the database of the Department and verifying the accuracy of the information. Through this process, the information of suspicious foreigners is entered into the Follow-up register maintained by the Visa Division.

- 1.2 In 2024, the total number of investigations conducted under field surveillance was 1305, the information of 1088 foreigners was included in the follow-up register through the Visa Division under Distance Surveillance. The relevant foreigner was requested to be referred to the Investigation Division in obtaining visa extensions. Out of the 1088 foreigners included in the follow-up register, 127 were recommended as ineligible for granting visa extensions. Out of the 127 recommended as ineligible for granting visa extensions, 105 were male and the majority were Bangladeshi nationals.
- 1.3 Total number of foreigners subjected for investigations under field surveillance and included in the follow-up register through distant surveillance in the year 2024 was 2393 out of which further investigations have been conducted for 942 foreigners for the year.
- 1.4 In 2024, 913 foreigners have been entered to Detention centres, and 867 foreigners have been removed from the country on removal orders and deportations during the relevant year. Following investigations conducted through distant and field surveillance, 460 foreigners were informed to leave the country. Accordingly, action has been taken to remove 1327 foreigners who had violated the Immigrants and Emigrants Act from the country in 2024.
- 1.5 As per the orders of the Investigation Division, 28 foreign nationals got regularized visa after paying the relevant fees in the year 2024.

2 Number of foreigners prevented from entering the country based on investigations conducted on risky individuals who may pose a threat to national security

- 2.1 Out of the 26,921 foreigners who applied for visa in 2024, 10,746 risky foreigners for whom the attention was paid were screened and 60 out of those applications were rejected through risk assessment. The majority of them were Pakistani nationals.
- 2.2 In 2024, 133 foreigners identified by the Border Surveillance Unit as to use forged documents were handed over to the Crime Investigation Department for further investigation.

3. The Border Surveillance Unit which was established under the Investigation Branch focusing the Bandaranaike International Airport since the first month of 2019 with the intention of minimizing human trafficking and human smuggling, which are considered as organized crimes and providing the necessary support for the investigation on visa abuses has taken into custody 112 Sri Lankans and 21 foreigners who so violated the law in the year 2024 and handed them over to the Criminal Investigation Department for further investigations.

4. Getting Uncovered the racket of taking Sri Lankan children to Europe via Malaysia using fraudulent Malaysian Passports.

- 4.1 The racket of taking Sri Lankan children to Europe via Malaysia using fraudulent Malaysian Passports was a special investigation uncovered by the Risk Assessment Centre in relation to the Investigation Branch last year. Accordingly, about 17 children between the ages of 5 and 17 have migrated from this country to Malaysia with the consent of their parents last year and they have not returned to this country. The Investigation Branch has been able to identify the suspects involved in this scam by analyzing the border database at length, analyzing the travel data and information of the suspects and gathering information through local investigations.
